JANUARY MESSAGE FROM THE PRESIDENT.

□

Hello and Welcome to the December 2020 / January 2021 edition of the By Hand and Eye.

Firstly it is with great sadness that I must announce the passing of Guild Member Number 1 John Ewart in October 2020. We only got the news just before the Guild meeting in November. I know that you all join with me in wishing John's family all the very best for the future.

So, welcome to 2021. I, like many people sincerely hope that it will be better than 2020. Looking back on the year I cannot help but feel proud of the way our governments and various departments handled the year. They had to deal with Drought, Unprecedented Bush Fires, Flooding, a Pandemic and finally more Flooding. I am also proud of the way all of us took responsibility and stepped up to help where we could. Even doing simple things like social distancing and wearing a mask were a big help and showed a willingness to be part of the solution and help fellow Australians. Yes, there were slip ups, but we were quick to recognize the problem and to take the, sometimes draconian, steps necessary to get things back on track, people generally accepted these measures. You only have to look across the pacific to see how different it could have been.

Now for 2021. The Guild is hoping that with the arrival of the vaccine this year, the year will be much more like normal. We are starting to look forward to the Royal Easter Show and the Timber, Tools and Artisans Show. These events are a great chance to showcase the Guild and what you, the members, are capable of producing. Please get involved with entering the Easter Show, you do not need to be the world's greatest turner just enter a piece that you are particularly proud of. The Timber, Tools and Artisans Show is a chance to showcase the craft of Woodturning and for you to sell some of your excess product. Please be part of it. We will need demonstrators and others to help at both activities. Please think about demonstrating, or helping in other ways.

I also want to thank the company's that help support your Guild by advertising in this newsletter. You will find their advertisements in the following pages. A number offer discounts of various kinds to you, the members. You only need to show your membership card or tell them the promotion code. Please support them.

Finally I want to wish you and your family a Happy New Year. I hope to see you all during the year.

So, until next time, to quote a previous Guild President "Keep the Lathes turning", and have fun and PLEASE, look after yourselves and each other.

Philip McLeod

(PHILIP MCLEOD)
PRESIDENT

Guild meetings take place at the Girl Guide Hall, 157 Waldron Street, Chester Hill. 2162.

The Guild meets on the last Monday of every second month i.e. January, March, May, July, September and November.

Meetings start at 1830, (6:30PM) and finish at 2100, (9PM) at the latest.

All members of the Guild are welcome to attend, but only 1 elected representative can vote at these meetings. This is to ensure that no one region can “out vote” the smaller regions. Everyone has an equal say in how the Guild is run.

Region formation dates are taken from 20th Anniversary Guild booklet. Some are approximations. If you have a more accurate date please let me know.

The following dates are significant for the Guild:

2021

Macarthur Region will be 28 Years young first meeting held 1993

Monday February 1 GUILD MEETING.

Thursday 30 January RAS Online Entry's close.

Monday March 15 Menai Region is 27 Years young

Monday March 29 GUILD MEETING.

Thursday 1 April to Monday 12 April SYDNEY ROYAL EASTER SHOW

Monday April 12 Eastern Region is 15 Years young

Friday April 16 Southern Highlands is 27 Years young

Monday May 31 GUILD MEETING.

Date TBA TIMBER, TOOLS and ARTISANS SHOW – Venue TBA

Sunday July 4 Guild is 38 Years young

Monday July 26 GUILD MEETING.

Wednesday August 4 Bankstown is 31 Years young

Friday September 17 Northern Beaches, (then Peninsula Region) is 28 Years young

Monday September 27 **(AGM and GUILD MEETING).**

Monday November 29 GUILD MEETING.

IT IS WITH GREAT SADNESS THAT I MUST ANNOUNCE THE PASSING OF JOHN GASTON EWART GUILD MEMBER NUMBER 1 AND LIFE MEMBER NUMBER 1.

The following is taken from "Portrait of a Woodturner" September 1992.

John, I am told, passed away in October 2020. John started work as a clerk in the Customs Department, and later had an importing business. His first turning was in 1972 on a converted engineers lathe. He liked it so much that he enrolled in the trade course at Sydney Tech studying under George Sutton and George Hatfield. Upon completion he started coaching at Tech. relieving George Sutton.

He claims that the most informative years were the ones working with George Hatfield on traditional turnings. Subsequently he started his "Woodturning Centre".

John was a foundation member of our Guild (started in July 1983).

John was a man of vision and predicted the current form of the guild with clubs under the umbrella of the Guild. He also encouraged integration with top artistic woodturners even though they may not be members of our guild (YET...). He encouraged female woodturners saying that they can often develop into better woodturners given their ability to create better free form shapes because of their experience with other crafts.

It seems that he was unbeatable at imparting knowledge and skill to students. His knowledge was wide ranging, covering business, artistic and commercial sides of woodturning.

John was always generous to the Guild with his time and money and permanently loaned a demonstration lathe and tools to the Guild.

VALE JOHN EWART WITH THE GUILDS THANKS.

ALMOST THERE – OLD COPYS OF WOODTURNER NEWS/BY HAND and EYE.

We are almost there. Thanks to Bill Black and The Cubby House. The last 3 missing editions are:

Anything from September 1983 3/84 (May/June), 6/84 (November/December).

I only want to scan them and get them digitized so they can go on the Guild web site.

So, please check with friends, under beds, in old boxes and see if you have any of these old copies. It would be appreciated.

FROM THE HISTORY FILES

A Country Woodturner – Ken Sullivan March 2010

About three months ago, I discovered that the (my) house in Jannali had been sold again, so I looked up the Real Estate pictures on the internet. There was one shot of the back yard, where the swing and platform had been. They were gone. Obviously pulled out.

We work in wood, and everything that we make will someday be discarded, or break, or rot away.

But sometimes, just having done it is enough.

Words of Wisdom Indeed – The Ed.

A SPECIAL REQUEST FROM ONE OF OUR FOUNDERS

Alex has received a request from George Hatfield. George, (Life member of the Guild, my woodturning TAFE teacher, the designer of the Guild's logo and now retired) that he is looking for a HELIGRIND tool developed and marketed by John Crawford.

This is an early woodturning chisel grinding tool that many turners of our era might remember from shows and as a supplier of the wide 8” grinding wheels, pen kits etc....

George is writing an article using a round cross-section scraping tool and he is looking for the Heligrind tool. If anyone has an old one and is not using it he would like to buy it.

The tool is a precursor of current similar tools such as Gorgi Armen’s Unijig and the NZ Woodcut True-Gring jig and a variety of other makers.

Thanks in advance

Alex Bendeli

The late John Crawford used to sell the “Heligrind” tool sharpening jig.

It is a jig used to grind the cutting edge of a detail gouges to a lady finger sharp.

If anybody has an old one and is not using it, I would like to buy it.

I can be contacted on 0432 829 747

George Hatfield

IF ANYONE CAN HELP WITH THIS PLEASE CONTACT GEORGE – THE ED.

Anaphylaxis

INFORMATION OBTAINED FROM THE AUSTRALIAN ALLERGY ORGANISATION.

If you, your Children or Grandchildren or a shed mate have Anaphylaxis you should all practice using the injector every few months with a practice injector, (NOT a real injector).

Anaphylaxis is a potentially life threatening, severe allergic reaction and should always be treated as a medical emergency. Anaphylaxis occurs after exposure to an allergen (usually to foods, insects or medicines), to which a person is allergic. Not all people with allergies are at risk of anaphylaxis.

It is important to know the signs and symptoms of anaphylaxis

Symptoms of anaphylaxis are potentially life threatening and include any one of the following:

- Difficult/noisy breathing.
- Swelling of the tongue.
- Swelling/tightness in the throat.
- Difficulty talking and/or hoarse voice.
- Wheeze or persistent cough.
- Persistent dizziness and/or collapse.
- Pale and floppy (in young children).

In some cases, anaphylaxis is preceded by less dangerous allergic symptoms such as:

- Swelling of face, lips and/or eyes.
- Hives or welts.
- Abdominal pain and vomiting (these are signs of anaphylaxis for insect allergy).

Several factors can influence the severity of an allergic reaction. These include exercise, heat, alcohol, and in food allergic people; the amount of food eaten and how it is prepared.

Identifying the cause of anaphylaxis is important

Your doctor will normally ask a series of questions that may help to narrow down the list of likely causes such as foods or medicines consumed that day, or exposure to insects. This approach will also help to exclude conditions that can sometimes be confused with anaphylaxis, such as fainting or an epileptic seizure. If allergy is suspected, this may be followed by allergy tests, usually a blood test for allergen specific IgE (formerly known as RAST tests) or skin prick testing, to help confirm or exclude potential triggers.

Effective management of anaphylaxis saves lives

If you are at risk of anaphylaxis, you will require ongoing management by your doctor. This should include:

- **Referral to a clinical immunology/allergy specialist***
- **Identification of the trigger/s of anaphylaxis** will include a comprehensive medical history and clinical examination followed by interpretation of allergy test results.
- **Education on avoidance of trigger/s** is particularly important with severe food allergy, as avoidance of the food is the only way to avoid an allergic reaction. Advice from an experienced allergy dietitian may also be required.
- **Provision of an ASCIA Action Plan for Anaphylaxis**** to provide guidance on when and how to use an adrenaline (epinephrine) autoinjector.
- **Regular follow up visits to a clinical immunology/allergy specialist.**

* Medical specialists providing clinical immunology and allergy services are listed on the ASCIA website.

** ASCIA Action plans must be completed by a doctor and kept with the adrenaline autoinjector. ASCIA Action Plans for Anaphylaxis are available from the ASCIA website.

Adrenaline is the first line treatment for anaphylaxis

Adrenaline works rapidly to reverse the effects of anaphylaxis and is the first line treatment for anaphylaxis. Adrenaline autoinjectors contain a single, fixed dose of adrenaline, and have been designed to be given by non-medical people, such as a friend, teacher, childcare worker, parent, passer-by or by the patient themselves (if they are not too unwell to do this).

An adrenaline autoinjector should only be prescribed as part of a comprehensive anaphylaxis management plan, which includes an ASCIA Action Plan for Anaphylaxis and education on how to reduce the risk of allergic reactions. If you or your child has been prescribed an adrenaline autoinjector, it is important that you learn and practice how to use it, by using a trainer device every three to four months.

OR **TELEPHONE ☎(02)9709 8805**

SHALLOW CURVE ROUGHING GOUGE:

3.2 x 20 x 140mm

5.5 x 32 x 230mm

6.3 x 42 x 230mm

CHANGEABLE CARBIDE TIPS & HOLDER SET:

This new holder design features an innovative cross groove along with each interchangeable tip having a molded cross bead to sit properly and stop tip movement. Tips can be rotated 90 degrees multiple times for extra usage. Holder is 10x10x170mm while tips come in 5 sizes: One Round 12mm, One Round 16mm, One 11x11mm Square, One 11x11mm Square with large radius and One Diamond 10x27mm.

CBN GRINDING WHEEL: CBN is Cubic Boron Nitride. Don't have to worry about dressing or shaping like typical aluminum oxide wheels. It's perfect for sharpening HSS turning tools. You will achieve a super fine, sharp edge with polished bevel on either hardened tool steel or carbide. CBN Grinding Wheel are very quiet, produce very little sparks and generate very little heat when sharpening. The steel wheel body with hollow recessing bushing to make it light.

MT.2 THREE STEP BUFFING SYSTEM: A durable wax finish with MT.2 lathe-mounted polishing system. Buffing passes are made with a Tripoli buff (linen wheel), White Diamond buff (linen/flannel wheel), then Carnuba wax (flannel wheel).

The final finish is very similar to multiple coats of lacquer but is softer and much deeper. Including: 3pcs 8" fabric buffing wheels 1pc Tripoli bar, 1pc White diamond bar, 1pc Carnuba wax bar. 1pc MT.2 heavy duty lathe mandrel which holds the buffing wheels. The system requires a lathe with a minimum of 1/2HP. It is recommended that the final piece be pre-treated with Danish Oil.

AROUND THE REGIONS

FROM THE GUILD.

The Guild meeting was held at the Chester Hill Girl Guide Hall on Monday 30 November. Your Guild currently has \$13,741.55 available to it. It was noted that Timberbits have now moved to Mona Vale and that entry's for the Royal Easter Show have not yet opened.

Next Guild meeting is set for Monday 1 February 2021.

All Regions/Clubs were asked to submit an updated assets list before Christmas. The list is required by our insurer and they want it before Christmas.

FROM THE EDITOR – When taking photographs for inclusion in the BH&E please try to put the item on a white, or light coloured background with as much natural light as possible. This will make it come out better in the newsletter. Thank you.

Please remember:

If you send me something for BH&E I will print it. Email: pwmcle@internode.on.net

MENAI REGION.

The Menai Region held their Christmas Party on the 8th December and a good time was had by all, and no one went home hungry.

The meeting planned for the 22nd December was cancelled due to the Covid19 situation in the greater Sydney area with members not wanting to take any unnecessary risks.

The first meeting for 2021 was held on the 5th January and 9 members turned up which was quite good considering the Covid19 situation. All members were requested to wear masks unless turning and this has been implemented as a rule for the time being at the Men's Shed as well.

The January BBQ with partners included was planned to be held on the 17th January, but this has been postponed until the 21st March. It is hoped that by then, the Covid19 situation will be much improved.

NORTHERN BEACHES.

Narrabeen RSL workshop was cleaned out and a container filled with all the bits and pieces. These items will have to be sorted out as to where they all go the new workshop. Some items may go to members or to other groups.

Covid_19. Lockdown came and stopped us from working. Insurance is still needed for a while for unpacking this container. The new Forestville workshop has the heavy equipment in place and work is progressing on the building, finishing the kitchen, toilets, fitting pipework from the lathes to the dust extractor etc.

We still have a long way to go. The New Forestville workshop looks very nice and clean with rubber mats on the floor, freshly painted walls, ceilings and the new ceiling dust extractors etc.

I would like to thank all of the team of workers who prepared our new workshop and those who cleaned the old workshop. A lot of planning went into it so that it ran like Clockwork.

Thanks again to all those members.

Gordon Scott & John Cottle Northern Beaches Woodturners

BANKSTOWN REGION.

Bankstown have acquired 5 new members recently. They also have a new dust extraction system. They recently have had a demonstration at their shed by Bote-Cote. They said it was very good and informative.

MACARTHUR REGION.

Due to Covid-19 MaCarthur has been closed. The situation has not changed in the last two months. However, they did point out that you should not neglect tool maintenance during this period of reduced activity. They recently opened their trailer, which is packed with all their equipment, they say the rust reached out to grab them. They spent several hours cleaning and lubricating everything.

EASTERN REGION.

The December meeting marked the end of the year and our Christmas Party and first BBQ since Covid.

December 19 was our last day of turning and after 1400 the shed tools and equipment were cleaned, sharpened and lubricated as required.

The Gang at the Christmas Celebration

Family and Friends

Food, Glorious Food.

Shed activities started on 9 January 2021. There were only a very small number of people who attended the shed, but it was good to get the place open again. The second week opening, (16 January) was much better attended with the shed full of people making saw dust. A really good feeling in the place.

There is also now a requirement for members to sign into and out of the shed and to pay \$5 to cover the costs of Tea, Coffee and consumables. This will be reviewed in March.

SOUTHERN HIGHLANDS REGION.

Southern Highlands are continuing to get their new premises sorted out. They have made great progress with waterproofing, electrical and plumbing jobs nearing completion. The Zoom meetings have up to 30 members attending.

This years' Christmas Party will be held at their Representatives home.

The address of their new premises is: Moss Vale Showground, 16 Illawarra Highway, Moss Vale NSW. 2577.

GUILD AFILIATES CALENDER OF EVENTS

BANKSTOWN REGION

Bankstown Region has their shed open on the 1st and 3rd Saturday of each month from 0800 to approximately 1430.

They meet at the Girl Guide Hall, 157 Waldron Street, Chester Hill. 2162.

Our meeting Dates for 2021 are:

TBA.

SOUTHERN HIGHLANDS REGION

Tuesday	Friday	Saturday (By Arrangement)
9 am – 12.30 pm	9 am – 12.30 pm
